LinkedIn: <https://www.linkedin.com/in/sehansadilsadi/>

PROFESSIONAL SUMMARY

Dedicated Computer Science undergraduate with a strong focus on Full-Stack Development and AI Integration. Experience building large-scale web applications, including government digital platforms and AI-powered career tools. Proficient in modern frameworks like React, Next.js, and Spring Boot, with a passion for delivering innovative, user-centric solutions.

WORK EXPERIENCE

Project Management Intern

ICTA, Sri Lanka September 2025 – Present

- Implemented the frontend for the new Government Information Center (GIC) website, delivering a responsive and multilingual user experience in Sinhala, Tamil, and English.
- Contributed to the AI integration component of the platform and improved the admin panel for efficient government content management.
- Collaborated on backend service development to ensure seamless frontend-backend integration.
- Conducted QA testing, applied security improvements, and optimized application performance.
- Supported project planning, stakeholder coordination, and maintained technical documentation aligned with national digital standards.

EDUCATION

BSc (Hons) Computer Science

University of Westminster (Informatics
Institute of Technology)
Expected Graduation: 2027

Foundation Certificate in Higher Education

Informatics Institute of Technology
Graduated: 2023

CERTIFICATIONS & COURSES

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- Web Development Essentials (Coursera)
- Postman Essential Training (LinkedIn Learning)
- Programming Foundations: Object-Oriented Design (LinkedIn Learning)
- Spring Boot 2.0 Essential Training (LinkedIn Learning)
- Learning Jira Software (LinkedIn Learning)

PROJECTS

New Government Information Center (GIC)

Link: staging.gic.gov.lk | Sept 2025 – Present

- Frontend Developer: Designed and executed the complete frontend architecture and UI for this national-scale portal.
- Built an administrative dashboard and integrated AI modules to improve information retrieval efficiency.
- Tech: Next.js, Tailwind CSS, Node.js, React, TypeScript, N8N

Dynamic Career Roadmap Generator

Link: skillify-web.vercel.app | Sept 2024 – April 2025

- Expanded an AI-powered career platform by integrating real-time job market data and automated recommendation logic to generate personalized skill development roadmaps.
- Tech: Next.js, Tailwind CSS, Flask, MongoDB.

Ticket Booking System Nov 2024 – Dec 2024

- Engineered a full-stack ticket reservation system supporting real-time booking, user authentication, and secure database operations.
- Tech: Spring Boot, Angular, MongoDB.

Student Management System May 2024 – Aug 2024

- Developed a Java-based desktop application to manage student records with search, sorting, and full CRUD functionality, improving data organization and administrative efficiency.
- Tech: Java, JavaFX.

TECHNICAL SKILLS

- | | | | |
|---------------|----------------|----------------|-------------------|
| • Java | • TypeScript | • MongoDB | • Python |
| • Spring Boot | • React | • SQL | • Next.js |
| • Node.js | • API Testing | • Git / GitHub | • Cloud Computing |
| • JavaScript | • MySQL | • OpenAI | • Test Automation |
| • N8N | • Tailwind CSS | • Angular | • HTML |

SOFT SKILLS

- Strong understanding of Data Structures and Algorithms
- Knowledge of Object-Oriented Programming and Agile methodologies
- Proficient with development tools including VS Code, IntelliJ, and Postman
- Strong communication and teamwork skills
